Professional Summary

Rajesh is Azure solution Architect and full stack development manager with over **19+** years of experience in the IT industry, specializing in .NET technologies and Azure. With a solid foundation of **15+** years in .NET technologies and **6 +** years in Azure and AI Services, I have developed a strong skill set that has allowed me to deliver high-quality solutions.
My certifications stand as a testament to my knowledge and commitment to professional development.

Technical Expertise

My technical expertise spans across a wide range of technologies and platforms:

1. **Compute Services**: Proficient in App Service, Azure Functions, VM, Container apps using ACR, ACI, Azure Container apps and AKS Cluster.
2. **Data Solutions**: Proficient in managing and manipulating data using Azure's comprehensive suite of data services (Azure SQL Database, Cosmos DB, Azure Managed Disks).
3. **Integration Services**: Expert in integrating disparate systems and services using Azure Logic Apps and API Management.
4. **Storage Solutions**: Skilled in designing and implementing scalable and secure storage solutions using Azure Storage services and AWS S3.
5. **Azure Open AI Service and Azure AI Services**: Knowledgeable in leveraging Azure's AI capabilities to build intelligent applications.
6. **Identity Management**: Proficient in managing access and ensuring security with Azure Identity Management and IAM service in AWS.
7. **DevOps Service**: Experienced in using Azure DevOps Service for continuous integration and continuous delivery (CI/CD), including Terraform, ARM Templates and Build and Release definitions, Jenkins Continuous integration and code management and collaboration using GitHub.
8. **Conversational Apps using Azure Chatbots**: Developed interactive applications using Azure Chat bots via Bot service & Framework Composer.
9. **Messaging and Event-Based Reliable Systems**: Expert in building reliable systems using Azure's messaging and event-based services such as Service Bus, Event Grid, and Azure Queues and Kafka messaging system and enabling asynchronous communication in the event architecture.
10. **Communication Services**: Proficient in building communication solutions using Azure Communication Services.
11. **Clean Architecture**: Experienced in designing and implementing systems following the principles of Clean Architecture.
12. SQL Server Management: Proficient in writing and tuning SQL queries and managing database projects using **DACPAC** through **Jenkin pipelines**.

In addition to my Azure expertise, I have extensive experience in:

- **C#.NET**: Proficient in developing robust and efficient applications using C#.NET.
- **ASP.NET CORE**: Expert in developing modern web applications and services with ASP.NET CORE.
- **.NET Technologies**: Skilled in various .NET technologies, enabling me to build versatile and scalable solutions.
- **Blazor**: Experienced in building interactive web UIs using Blazor.
- **Entity Framework**: Proficient in object-relational mapping (ORM) with Entity Framework.
- **.NET Interactive**: Experienced in using .NET Interactive for data exploration and presentation.

Additionally proficient in **PowerShell** & **Python**; adept at .NET interactive API testing using **REST CLIENT**, **Swagger** & **Postman**.

Certifications

I have earned several certifications that validate my skills and expertise. These certifications include:

- [**AZ-305 Azure Solution Architect**](#)
- [**AZ-400 DevOps Engineering Expert**](#)
- [**AZ-204 Azure Developer Associate**](#)
- [**AZ-104 Azure Administrator**](#)
- [**AI-102 Azure AI Engineer Associate**](#)
- [**PL-100 Power Platform App Maker**](#)
- [**Foundational C# with Microsoft**](#)
- [**AZ-900 Azure Fundamentals**](#)
- [**DP-900 Azure Data Fundamentals**](#)
- [**AI-900 Azure AI Fundamentals**](#)
- [**PL-900 Power Platform Fundamentals**](#)
- [**MS-900 Microsoft 365 Fundamentals**](#)

Honors& Rewards

Received (14)   Given (7)

Daniel Rohaert
Business Support Officer at AXA Assistance
May 6, 2019, Daniel was a client of Rajesh's

During more than 2 years I was privileged to work together with Rajesh. Very technically and analytical, passionate, hard working colleague and also very interested in the business story are only few of his skills that made our collaboration a real success with strong results.

Arnaud Leplat
Head of Operations Benelux at AXA Partners
April 28, 2019, Arnaud was a client of Rajesh's

Thanks to his skills, commitment and professionalism, Rajesh has been a key contributor to the successful deployment of a customer front end application. Rajesh was able to manage changing business priorities in a complex project set up and to provide an accurate status on achievements and remaining work at all times.

Kastriot Ramani
IT Business Analyst at AXA Assistance
April 12, 2019, Kastriot was a client of Rajesh's

I worked with Rajesh Kolla from December 2018 until April 2019. On this occasion, he showed many skills and the efficiency in his work greatly pleased us. Rajesh has always been a reliable and responsible person, both in his work and in his dealings with his colleagues. We wanted to thank him for his involvemen... **See more**

Fabien Alaerts
Head of EB/ESES Communication Services & Agile Transformation chez Euroclear
September 22, 2016, Fabien was a client of Rajesh's

Rajesh has been a designer on the Easyway application at Euroclear, our new transactional Web application. Rajesh helped us both from offshore and from onsite where he was on the production support side. Rajesh as shown above average dedication to the success of the programme, and is extremely client focused. He is a hard working element, with very strong analytical skills, which made him a very precious collaborator. **See less**

Nicolas Taylor
Release Coordinator (Test Lead) at Euroclear
April 19, 2016, Rajesh worked with Nicolas in the same group

Rajesh is one of the best technical expert I've worked with. Always helpful to help to investigate pre-production/production issues when needed and with a clear explanation of the issue.

Dirk Vandenheuvel
Enterprise Architect at FCR Media Belgium
March 20, 2016, Rajesh worked with Dirk in the same group

Rajesh combines a very strong technical knowledge with a very positive work attitude. He pays attention to detail and goes the extra mile to point out possible problems and offers solutions. A versatile Consultant, he is highly valued by both customers and colleagues.

Ben Goossens
Group Manager and SE TC Lead at Avanade
March 15, 2016, Ben managed Rajesh directly

Rajesh is hands down the best offshore senior technical consultant I have ever worked with. He"s smart, loyal, passionate, fast and very skillful - a real joy to work with. He will get the job done, no matter what.

Allert Aalders
Agile Transformation Consultant at inspearit NL
March 15, 2016, Rajesh worked with Allert in the same group

Worked with Rajesh at a client engagement. He demonstrated an in-depth technical knowledge. Got to know him as a true team player showing commitment and drive for quality. A key senior consultant with a solid Agile experience. I would be happy to work with Rajesh again on any future project.

Yves Vervloesem
Agile Transformation | Scrumthusiast | FinTech
March 14, 2016, Rajesh worked with Yves in the same group

When Rajesh sinks his teeth into a mission, he will get it done. Pulls the team forward, also with expertise and information so that everyone is on the same sheet of music, business-knowledge-wise.

Conclusion

With my extensive experience and technical skills, I am confident in my ability to contribute effectively to any project. I am always eager to learn and adapt to new technologies and challenges. I look forward to bringing my strong problem-solving skills and dedication to quality to your team.
